

My cuisine is dedicated to nature and respect for the environment. Exclusively seasonal, it favours the work of artisans of the land and sea who use authentic methods and offer a very high quality of taste and nutrition.

The dishes I imagine are the interpretation of the ephemeral, of a sunlight or stars in a season. The menu follows its path, from our vegetable garden: "Le Clos de Nonville" to the ocean, to blossom fully at your table.

I am passionate about the ocean, its fish, shellfish, seaweed and seaside herbs. An ecoresponsible approach to cooking is essential if we are to continue to enjoy the resources of our land. Let's preserve it together!

It is equally important to cultivate the human side by strengthening relationships with all the people who are the essence of my cooking: pickers, market gardeners, fishmongers, breeders, whose methods respect the environment. And of course my entire team.

I welcome you to my world.

"At Relais & Châteaux, we are all hotel and restaurant artisans scattered across the planet, heirs to the great cultural history of hospitality and world cuisine, and we have chosen to be faithful to the mission we have set ourselves: to preserve and pass on the uniqueness of the cuisines, to avoid the renunciation and ease that threaten our civilisations of the immediate; to remind us every day, through our practice as artisans, that our humanity is always expressed and replenished in the sharing of the beautiful and the good"
